The White Mole's Story - Making Mountains out of Molehills by Stephen Wilson: Titterington published by Austin Macauley Publishers. Non-Fiction

### **The White Mole's Story - Making Mountains out of Molehills**

“Moles” (melanocytic nevi) are common, raised or flat skin lesions that contain an increased number of melanocytes. Melanocytes are the cells in our skin that make pigment (melanin), which accounts for our skin color. Moles are most often tan or brown in color, but sometimes they can be skin-colored, pink, or even blue.

It has to be a story about an actual animal mole that would appeal to a general audience but also use some chemistry terms and I have to use Avogadro's number ( $6.02 \times 10^{23}$ ; a "mole") at least once. I can't think of anything to write about, my mole has to be unique and I also have to sew a little stuffed mole that incorporates something from the story.
