"It is precisely because the world appears in and is made of infinite, indivisible consciousness that it appears from the perspective of each finite mind to be the same world.

Saying there is NO life on other planets is a bit extreme. With the discovery of exoplanets, some rocky, near earth size, and in the habitability zone of their host star, saying there is NO life on other planets is to close your mind to the possibility of, at least, exoplanet microbial life.

One of the most storied, Aaron Sorkin-esque moments in American history—making the rounds this weekend after Donald Trump's indecent comment on Khizr Khan's speech at the DNC—is Joseph Welch's famous confrontation with Joe McCarthy. The date was June 9, 1954; the setting, the Army-McCarthy hearings.
