Biological Weapons - University of Hartford

This is the type of infection expected with use of *B. anthracis* as a biological warfare agent. Respiratory
anthrax is contracted by breathing in bacterial spores, as would be the case when *B. anthracis* is used as a
biological warfare agent. This type of anthrax has two phases.

Chapter Seven BIOLOGICAL WARFARE AGENTS - rand.org

Biological warfare, bioterrorism, biodefence and the biological and toxin weapons convention 101 terroristic
or warfare purposes. The best known example, reported by UNSCOM (Table), is the 3 masquerading of
an anthrax-weapon production facility as a routine civil biotechnological laboratory at Al Hakam.

Biological warfare, bioterrorism, biodefence and the

Antibiotics: Victims of biological warfare might be given antibiotics orally (pills) or through an IV, even before
the specific agent is identified. Vaccinations: Currently, protective vaccines (given as shots) are available for
anthrax, botulinum toxin, tularemia, plague, Q fever, and smallpox.

biological warfare or terrorism: 1. Maintain a healthy index of suspicion. 2. Protect yourself. 3. Save the patient's life (the primary assessment). 4. Disinfect or decontaminate as appropriate. 5. Establish a diagnosis (the secondary assessment). 6. Provide prompt therapy. 7. Institute proper infection control measures. 8. Alert the proper authorities. 9.

Chapter 20 MEDICAL MANAGEMENT OF POTENTIAL BIOLOGICAL

This is the second article in a series of papers addressing issues related to biological warfare and bioterrorism. As outlined in the historical review of biological warfare (1), smallpox is one of the most devastating diseases that could potentially be used as a biological weapon. In fact, smallpox ...

Smallpox and biological warfare: a disease revisited

and possibly Egypt as a potential biological warfare agent, but was never used in this capacity.⁶⁹⁻⁷¹ However, *B mallei* was used as a biological warfare agent during the American Civil War, World War I, World War II, and in Afghanistan between 1982 and 1984.^{2,70,72,73} The use-fulness of *B pseudomallei* as a biological warfare agent

Chapter 7 MELIOIDOSIS - United States Army

Biological and Chemical programs. As the result of a class action law suit filed by the Vietnam Veterans of America, the U.S. Army is required to provide medical care to Veterans who volunteered for chemical and biological research testing between 1942 and 1975. The Army will help Veterans obtain medical care through military treatment facilities.

VA Chemical and Biological Warfare Testing Program

Biological Warfare Symptoms. Anthrax bacteria occur worldwide. The United States Working Group on Civilian Biodefense and the Centers for Diseases Control and Prevention (CDC) have identified anthrax as one of a few biological agents capable of causing death and disease in sufficient numbers to cripple a developed region or urban setting.
