If your cardiologist is concerned about your heart, you might be referred for an angiogram a diagnostic procedure that provides detailed x-ray pictures of your heart and its blood vessels. As with any procedure, knowing what the test can tell you and your doctor as well as what to expect before, during, and after the test can help minimize stress.

Sun tanning or simply tanning is the process whereby skin color is darkened or tanned. It is most often a result of exposure to ultraviolet (UV) radiation from sunlight or from artificial sources, such as a tanning lamp found in indoor tanning beds. People who deliberately tan their skin by exposure to the sun engage in a passive recreational activity of sun bathing.
